# ***KEEP***

## ***The Edge***

### ***WELCOME***

Viridian Weapon Technologies® brings you answers. We don't follow or look for simple additions. We create categories and continually improve our lineup. Our vision from the front results in unobstructed views and cutting edge, distinctive product innovations.

**IMPROVE**  
YOUR PLATFORM

**NEW FOR 2020**

Viridian Weapon Technologies delivers. From Weapon-Mounted Cameras (WMCs™) to slimmer, stronger, longer-life lights and lasers—our products perform. They're progressive, advanced and automatic. In 2020, you'll find Viridian on more weapons and with more options that fit your needs. We keep our R&D team engaged at home and with other leaders in the industry to bring you the best.

No one partners with more gun companies than Viridian.

**OPTICS**

We know what you're looking for in optics. When choosing a scope, everyday shooters and hunters want to keep things simple, with BS-free solutions. At Viridian, we give you all you need and nothing you don't.

**GREEN E SERIES™**

In 2020, we are taking the popular Red E Series Laser sights and going GREEN! The new Green E Series has all the same great benefits as the original red - virtually weightless design, ambidextrous activation, long run times, and the industry's best warranty - now available in all-conditions-visible green laser. Look for the new Green E Series at your local retailer as well as pre-mounted on many popular pistols in 2020.

**HS1**

The HS1 is the first and only hand stop with an integrated laser sighting device. The HS1 gets shooters on target with the added benefit of a compact and ergonomic hand stop for tactical rifles.

# VIRIDIAN. INNOVATORS OF TECHNOLOGY

## INSTANT-ON<sup>®</sup> TECHNOLOGY

When you draw, it's on. INSTANT-ON<sup>®</sup> is the world's first automatic camera / laser / taclight activation system. Just pre-set your Viridian<sup>®</sup> product mode and slide your gun into an INSTANT-ON<sup>®</sup> holster. The instant you draw, the camera / laser / taclight ignites automatically – no fumbling with buttons, squeezing grips or changing your hold.

1. INSTANT-ON<sup>®</sup> FEATURE SHUTS OFF THE CAMERA / LASER / TACLIGHT WHILE HOLSTERED.

2. THE CAMERA / LASER / TACLIGHT INSTANTLY POWERS ON THE MOMENT YOU DRAW.

### BACK TO BASICS. INSTANT-ON<sup>®</sup>

THE CORE TECHNOLOGY OF OUR PRODUCTS IS EXACTLY WHAT MAKES THEM SO EASY, SO EFFECTIVE AND SO REVOLUTIONARY.

INSTANT-ON<sup>®</sup> is the fastest, simplest activation available. See video at [ViridianWeaponTech.com](http://ViridianWeaponTech.com)

# HSI1<sup>®</sup>

## LASER HAND STOP

### VIRIDIAN<sup>®</sup> OFFERS THE WORLD'S FIRST AR HAND STOP

VIRIDIAN'S new HSI<sup>™</sup> is the world's first AR hand stop with integrated laser sighting device. Utilizing M-LOK<sup>®</sup> mounting, double pressure activation buttons, adjustable windage and elevation, and an ergonomic design, the HSI is the perfect accessory for your tactical firearm.

#### AUTO ACTIVATION - GRIP N' RIP

The unique double pressure activation buttons make the HSI ideal for use on AR-style firearms as the laser can be activated when the shooter is using a thumb-over-bore or C Clamp grip, or a traditional off-hand rifle grip. The shooter gets all the protection of a hand stop while utilizing a highly visible green laser sight for aiming.

- REACTOR® 5 GREEN LASER + INSTANT-ON® HOLSTER
- REACTOR® 5-R RED LASER + INSTANT-ON® HOLSTER
- REACTOR® TL TACLIGHT WITH RADIANCE® + INSTANT-ON® HOLSTER

The threat-stopping impact of Viridian® for your CCW. The REACTOR R5 green laser sight is up to 50 times brighter than red lasers, with INSTANT-ON®. The REACTOR R5-R has all the same great quality and performance you expect from Viridian but with a red laser for those on a budget. The REACTOR TL, with RADIANCE® technology and INSTANT-ON® illuminates over twice the horizontal area for greater security after dark. Each blends seamlessly into the trigger guard for invisible profile and smooth draw, giving your carry pistol new clout when it counts.
