Congratulations on your purchase of a **VIRIDIAN GREEN LASER SIGHT**, the finest and most visible laser available. Please take a moment to review this guide prior to operating your VIRIDIAN.

**DO NOT RETURN THIS PRODUCT TO THE STORE**

If you experience any problems with your product or are missing parts, please contact us for assistance. We want to help you!

**YOUR PACKAGE INCLUDES:**
- 1 VIRIDIAN Green Laser Sight
- 2 Windage/Elevation Adjustment Wrenches
- 1 CR2 Battery (3 Volt Lithium)
- 3 Unique Rail Sets (R1 Rail Set™ pre-installed)
- 1 Rail Set™ Pin Removal Tool
- 2 Mounting Screws

**CAUTION!!!** **HIGH POWER GREEN LASER**
THE VIRIDIAN GREEN LASER SIGHT IS NOT A TOY AND CAN CAUSE TEMPORARY BLINDNESS AND/OR SEVERE RETINA DAMAGE

AVOID DIRECT EYE EXPOSURE - REFER TO YOUR OPERATOR’S MANUAL WARNINGS BEFORE OPERATING YOUR GREEN LASER
OPERATING YOUR VIRIDIAN

ON/OFF ACTIVATION To turn your VIRIDIAN on, press either of the ambidextrous rubber tactile buttons. Press either button again to turn off.

CHANGING MODES Pressing both buttons while the laser is on will cycle through 6 different modes of operation for the C5L (2 modes for C5). Press both buttons and release each time to reach the next mode.

To enter Deep Programming mode for even further customization hold down both buttons for greater than 3 seconds. Continue to hold down both buttons to observe these changes. Release both buttons to lock in your Deep Programming change. Your VIRIDIAN will remember your mode and Deep Programming selection for your next use.

GENERAL INFORMATION
- Use a moistened Q-tip to periodically clean the front lens of gun powder residue.
- Remove the battery when your VIRIDIAN is stored for extended periods.

CHANGING THE RAIL SET™
1. Push Rail Set™ Pin in approx. 1/4”
2. Remove existing right side Rail Set™
3. Insert new Rail Set™ on right side
4. Push Rail Set™ Pin back in the reverse direction until it protrudes out the other side by 1/4”
5. Remove existing left side Rail Set™
6. Insert new Rail Set™ on left side
7. Return Rail Set™ Pin to center.

You are now ready to install your VIRIDIAN onto the rail of your firearm.
Congratulations on your purchase of a VIRIDIAN, the finest and most visible laser sight available. Please read and follow the instructions in this manual to get the most out of your VIRIDIAN Green Laser Sight.

YOUR PACKAGE INCLUDES:
1 VIRIDIAN Green Laser Sight
2 Windage/Elevation Adjustment Wrenches
1 CR2 Battery (3 Volt Lithium)
3 Unique Rail Sets (R1 Rail Set™ pre-installed)
1 Rail Set™ Pin Removal Tool
2 Mounting Screws

DO NOT RETURN THIS PRODUCT TO THE STORE! If you experience any problems with your product or are missing parts, please contact us for assistance. We want to help you!

WARNINGS

1. Before handling any firearm with a VIRIDIAN, read and understand the entire contents of your firearm manual provided as well as the VIRIDIAN manual, especially the safety precautions and procedures for safe firearms handling.

2. Failure to follow the correct safety precautions and safe firearms handling techniques outlined in your firearm and VIRIDIAN operator’s manuals when handling a firearm with the VIRIDIAN can result in serious injury, damage to property, or death.

3. Always practice safe firearms handling techniques when handling a firearm with or without the VIRIDIAN.

4. Never point a firearm, with or without the VIRIDIAN attached, at anything or anyone that you do not intend to shoot.

5. Once the VIRIDIAN is attached to a firearm, the firearm will be pointed at anything to which the VIRIDIAN is directed. Do not point the VIRIDIAN at anything or anyone that you do not intend to shoot.

6. The activation buttons on the VIRIDIAN allow you to operate the laser without placing your finger inside the trigger guard. Always keep your fingers off the trigger and outside the trigger guard until you are ready to fire the weapon.

7. Always verify that the chamber of the weapon is empty or “clear” before attempting to mount or dismount the VIRIDIAN. Follow the “clearing” procedures as set forth in the manual for your firearm.
WARNINGS CONT.

8. Always remove the VIRIDIAN from the firearm when performing maintenance or cleaning of the VIRIDIAN or when replacing battery.

9. Always make sure the weapon is “clear” and on safe before making windage/ elevation adjustments.

10. Failure to follow any of the safety warnings listed above when handling a firearm and/or the VIRIDIAN can be dangerous and can result in serious injury, damage to property, or death.

11. Do not operate the VIRIDIAN around cleaning solvents or flammable/combustible materials. Avoid use of the VIRIDIAN in environments involving a flammable atmosphere or gasses, such as evaporated gasoline. Do not use the VIRIDIAN in areas where gasoline, paints and solvents or other flammable liquids are stored.

12. The VIRIDIAN should be tested periodically during periods of non-usage to ensure its proper functioning. When anticipating usage of and reliance upon the VIRIDIAN, check the VIRIDIAN beforehand to ensure proper working order.

13. Proper functioning of the VIRIDIAN is dependent upon an adequately charged battery. Use care when handling battery. Any battery may leak harmful chemicals which may damage skin, clothing, the VIRIDIAN, or the gun itself. To avoid risk of injury, do not let any material leaked from a battery come in contact with eyes or skin. Do not expose battery to excessive heat. Follow battery manufacturers’ instructions as to proper handling, storage and disposal of battery.

SAFETY SUMMARY

VIRIDIAN WARNING LABEL

Output Power: <5 mW
Wavelength: 532nm
Class IIa Laser Product
SAFETY SUMMARY CONT.

DO NOT stare into the green laser beam.

DO NOT look into the green laser beam through binoculars or telescopes.

DO NOT point the green laser beam at mirror-like surfaces.

DO NOT shine the green laser beam into or near anyone’s eyes.

DO NOT point the green laser at any person, animal, or moving vehicle, including aircraft.

INSTALLING BATTERY

1. Your VIRIDIAN’s CR2 battery resides within the housing located at the bottom front of your VIRIDIAN. This battery design allows you to change your battery without removing your VIRIDIAN from your firearm. (See Figure A)

2. To access the Battery Compartment simply turn the Threaded Battery Cap (Aluminum) counterclockwise and remove.

3. Slide the CR2 Battery (3 Volt Lithium) into the housing positive side (+) first. Once the battery is in place, the positive side (+) should be to the back, and the negative side (-) to the front of your VIRIDIAN.

4. To secure battery into place, line up the threading of the Battery Cap with the hole in the front of your Housing and turn clockwise until the Battery Cap reaches its stopping point.

CAUTION

To remove or install the threaded battery cap of the C5 housing take care to properly line up the threads so as not damage the polymer internal threading of your Viridian. A quarter or penny works best to remove or install this front cap.

CAUTION

Periodically test Viridian periodically during periods of non-usage to ensure adequate battery levels.
These 3 Rail Sets™ are included with your VIRIDIAN C5 Series and will allow mounting for the vast majority of railed firearms. Figure B is meant as a guide to get you started.

For handguns, choose the Rail Set™ that will allow the C5 to be set back and as close to the trigger guard as possible.

For more information or to purchase VIRIDIAN Rail Sets™ for harder to fit weapons, (such as HK USP or S&W Sigma), please visit us online at www.ViridianGreenLaser.com.
CHANGING THE RAIL SET
1. Push Rail Set™ Pin in approx. 1/4" with Rail Set™ Pin Removal Tool
2. Remove existing right side Rail Set™ from your VIRIDIAN
3. Insert new Rail Set™ on right side
4. Push Rail Set™ Pin back in the reverse direction until it protrudes out the other side by 1/4"
5. Remove existing left side Rail Set™
6. Insert new Rail Set™ on left side
7. Return Rail Set™ Pin to center.

You are now ready to install your VIRIDIAN onto the rail of your firearm.

MOUNTING
1. Align the grooves within the Rail Set™ of your VIRIDIAN with the grooves on the rail of your firearm and slide rearward until your VIRIDIAN reaches the front of your firearm’s trigger guard.
2. If you have the proper Rail Set™ installed for your firearm, one set of holes within the sides of the Rail Set™ should align with the Cross Slot of the accessory rail under your firearm. It is OK to slide your VIRIDIAN slightly forward (away from the trigger guard) to achieve this alignment.
3. Insert the Mounting Screw and turn it clockwise until firmly tightened. A flat head screw driver or coin can be used here. If using a two holed Rail Set™ such as the R2 on a picatinny rail you will want to install and tighten both mounting screws.

WARNING
NEVER PUT YOUR HAND IN FRONT OF THE MUZZLE OF A FIREARM. ALWAYS KEEP YOUR FINGER AWAY FROM THE TRIGGER UNTIL YOU ARE READY TO FIRE. ALWAYS MAKE SURE THE WEAPON IS CLEAR AND ON SAFE BEFORE ATTEMPTING TO MOUNT OR DISMOUNT FROM YOUR WEAPON.
DISMOUNTING

1. To dismount the VIRIDIAN from your weapon, turn the Mounting Screw counterclockwise until this screw is removed from your VIRIDIAN. Store your Mounting screw in a secure place such as your original VIRIDIAN packaging.

2. Your VIRIDIAN is now ready to be removed from your handgun. Slide the VIRIDIAN forward and away from the trigger guard to remove it from your weapon. Always take great care to NEVER put your hand in front of the muzzle of your firearm.

OPERATION / SMARTLASER TECHNOLOGY™

The VIRIDIAN C5 Series has unprecedented user programmability options never seen before in a commercially available weapon mounted device.

Your VIRIDIAN’S activation is completely ambidextrous. Simply press either right or left button to activate or deactivate your VIRIDIAN C5 Series in any of its modes.

Holding either button in for longer than 3/4 second will activate your VIRIDIAN in momentary mode. In this case your VIRIDIAN will turn off upon release of the button.

In the event your VIRIDIAN is accidentally left on, it will shut down in approximately 10 minutes after a brief warning period. If you wish to keep the power on, simply press either button. This will reset the power down timer.

The VIRIDIAN CSL has a total of 6 unique user modes and the VIRIDIAN C5 has two unique user modes (See Table A). To cycle through these modes simply press and release both right and left buttons at the same time while the unit is on.

For those that desire even more user programmed versatility, hold down both buttons for 3 seconds to engage Deep Programming Mode. This will allow customized frequencies of pulse rates of both light and laser as well as adjustable LED lumen output.

</tbody>
</table>

To change modes press and release both buttons at the same time while the unit is on.

To enter Deep Programming mode hold down both buttons for greater than 3 seconds. Continue to hold down both buttons to observe these Deep Programming changes. Release both buttons to lock in your Deep Programming change.

Hz or Hertz is a unit of frequency and is defined as the number of cycles per second. As used here it is the number of pulses per second whether light or laser.

The ½ second pause is to allow you a moment to release both buttons so you know you are at either the bottom, ideal, or top frequency.

Your Laser/Light mode selections and Deep Programming setting will always be stored for the next use of your VIRIDIAN.

Removing the battery will return your VIRIDIAN to factory default settings. (Mode 1 Constant Laser Only)

**WARNING** NEVER PUT YOUR HAND IN FRONT OF THE MUZZLE OF A FIREARM. ALWAYS KEEP YOUR FINGER AWAY FROM THE TRIGGER UNTIL YOU ARE READY TO FIRE. ALWAYS MAKE SURE THE WEAPON IS CLEAR AND ON SAFE BEFORE MOUNTING OR DISMOUNTING ANY ACCESSORY ONTO YOUR FIREARM.
ZEROING PROCEDURES

BE SURE OF YOUR TARGET AND BACKGROUND BEFORE FIRING. WHEN YOU SQUEEZE THE TRIGGER, YOU MUST EXPECT THE PISTOL TO FIRE AND YOU MUST TAKE FULL RESPONSIBILITY FOR FIRING IT.

1. Set up a target with a clearly visible aiming point.
2. Mount the VIRIDIAN onto the weapon’s accessory mounting rail (see “Mounting” procedures).
3. Turn ON the VIRIDIAN (see “Operation” procedures).

4. While aiming the pistol through the iron sights, use one of the two provided adjustment wrenches to adjust the visible green point of the VIRIDIAN. Turn the windage and elevation wrench to superimpose the VIRIDIAN’S aiming point over the weapon’s iron sight aiming point.
5. Aim and fire a three round shot group into the center of the target’s aiming point.
6. Compare the impact point of the shot group to where the VIRIDIAN’S aiming point was on the target to ensure they line up.
7. Make the necessary adjustments to the VIRIDIAN to ensure its aiming point and the shot group are aligned.
8. Turn the unit OFF.

An alternative way to align the VIRIDIAN is to hold the green aiming point perfectly fixed to the center of the intended target and then adjust windage and elevation so that your green aiming point is brought to the center of your previous shot grouping. The gun and the VIRIDIAN must remain in a fixed position while making these adjustments.

WARNINGS BEFORE HANDLING ANY FIREARM WITH THE VIRIDIAN, READ AND UNDERSTAND THE ENTIRE CONTENTS OF YOUR FIREARM MANUAL AND THE VIRIDIAN MANUAL, ESPECIALLY THE SAFETY PRECAUTIONS AND PROCEDURES FOR SAFE FIREARMS HANDLING.

ALWAYS CHECK TO SEE IF THE CHAMBER OF THE WEAPON IS EMPTY OR “CLEAR” BEFORE ATTEMPTING TO MOUNT OR DISMOUNT THE VIRIDIAN. FOLLOW THE “CLEARING” PROCEDURES AS SET FORTH IN THE MANUAL FOR YOUR FIREARM.

CAUTION DO NOT FORCE WINDAGE AND ELEVATION SCREWS BEYOND THEIR INTENDED TRAVEL.

WARNING NEVER PUT YOUR HAND IN FRONT OF THE MUZZLE OF A FIREARM. ALWAYS KEEP YOUR FINGER AWAY FROM THE TRIGGER UNTIL YOU ARE READY TO FIRE. ALWAYS MAKE SURE THE WEAPON IS CLEAR AND ON SAFE BEFORE MAKING WINDAGE/ELEVATION ADJUSTMENTS.
Separate modes allow for individual laser recognition in tactical team situations. Constant beam mode will give you the maximum laser visibility; however, using one of the laser pulsing modes will maximize battery life. Battery life, (with laser on only), will increase from approx. 4+ hours in constant to 7+ hours in the pulsing modes. With laser and tactical light on (high output) battery life will be approximately 60 minutes.

Your VIRIDIAN green laser is equipped with APC circuitry. This maintains constant laser power output for a consistently bright aiming point. In the event of excess internal heat buildup you may temporarily experience reduced laser power output. This is by design and will not damage your laser. This condition may be more prevalent with heavy use of the LED while the laser is on or in extremely hot environments.

Front Lens Cleaning:
Use a moistened cotton swab to periodically clean the front lens of gun powder residue. This step is important to prevent any degradation in the quality of the green aiming point and/or beam.

Exterior Of Unit:
Clean the VIRIDIAN by wiping with a soft, damp cloth. Standard gun cleaning solvents may be used to clean stubborn areas.

Electrical Contacts:
For cleaning of all electrical contacts, use a cotton swab dipped in alcohol. To remove heavy build-up on the contacts, carefully rub with a standard pencil eraser (be sure to thoroughly remove eraser residue).

WARNING: Always check to see that the chamber of the weapon is empty or “clear” before attempting to mount or dismount the VIRIDIAN. Follow the “clearing” procedures as set forth in the manual for your firearm. Make sure the weapon is clear and on safe before proceeding. Prior to cleaning, dismount the VIRIDIAN from your weapon and remove the batteries. It is recommended that you clean your accessories periodically to ensure proper working condition.

CAUTION: Do not use acidic or flammable cleaning compounds.

GENERAL INFORMATION

MAINTENANCE
LIMITED WARRANTY

LASER AIMING SYSTEMS CORPORATION
12 MONTH LIMITED WARRANTY

Laser Aiming Systems Corporation warrants for 12 months after purchase that its products will be free from defects in material and workmanship. Laser Aiming Systems Corporation will repair or replace, at its option, any product or part (with the exception of the battery) which is found to be defective under normal use and service, without charge. Laser Aiming Systems Corporation’s obligation to repair or replace, at Laser Aiming System’s option, shall be the purchaser’s sole and exclusive remedy under this warranty.

Warranty does not cover battery leakage; contact battery manufacturer in this event. This warranty extends only to the original owner. THERE ARE NO WARRANTIES, EXPRESS OR IMPLIED, OTHER THAN AS SET FORTH ON THIS PAGE, AND LASER AIMING SYSTEMS CORPORATION DISCLAIMS ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. LASER AIMING SYSTEMS CORPORATION SHALL NOT BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES ARISING OUT OF OR IN CONNECTION WITH PRODUCT USE OR PERFORMANCE. For service or repair, return unit UPS prepaid with a copy of the sales receipt to Laser Aiming Systems Corporation.
