

FOR IMMEDIATE RELEASE:

## VIRIDIAN GREEN LASER SIGHTS RELEASES WORLD'S FIRST SUBCOMPACT GREEN LASER SIGHT

GREEN LASER SIGHTS

Minneapolis, MN—1/14/10 Viridian Green Laser Sight is excited to announce the release of their highly anticipated C5 - the world's first and only subcompact green laser sight.

Combining cutting edge materials and engineering, Viridian was able to produce a green laser sight so small and powerful it will fit subcompact railed handguns without protruding past the muzzle or below the trigger guard. The sheer size isn't the only exceptional feature on the Viridian C5 - an ultra visible 5mW green laser controlled by improved SMARTLASER™ Technology gives the user unmatched customizable modes. Also, the new rail set mounting system will allow the unit to be used on almost any railed firearm, including subcompact Springfield XD's and Smith and Wesson M&P's. The C5's housing is made by pairing aircraft grade 6061 aluminum and superior polymers to give it incredible strength while remaining light weight. The C5 is expected to begin shipping to dealers in the first quarter of 2010.

Viridian Green Laser Sights can be purchased at many fine retailers across the country. Current Viridian models include units built specifically for Springfield XD/XDm's, GLOCK's, M&P's and other popular automatic handguns as well as a universal light and laser combo (X5L) that will fit almost all railed firearms. A full line of high quality Kydex holsters will also be released soon. These holsters will be designed to fit most popular Viridian-equipped handguns currently on the market.

## ABOUT VIRIDIAN GREEN LASER SIGHTS

Viridian Green Laser Sights is the nation's fastest growing laser sight manufacturer. Headquartered in Minneapolis, Minnesota, Viridian Green Laser Sights is devoted to utilizing cutting edge laser technology to offer compact, powerful, green lasers, for military, law enforcement, and civilian usage. While not the original developer of green laser technology, Viridian Green Laser Sights was the first company to offer a compact green laser sight for use on pistols. Viridian Green Laser Sights, and its patent pending technology, make them the world's leading green laser sight manufacturer. The company prides itself on offering the brightest and highest quality laser sights available. Viridian Green Laser Sights are designed and built in the USA.
