

FOR IMMEDIATE RELEASE:

## VIRIDIAN SET TO RADICALLY CHANGE COMBAT READINESS

GREEN LASER SIGHTS

Minneapolis, MN—12/9/11—Viridian Green Lasers has created a radical laser sight innovation that will “redefine what combat readiness means” for law enforcement, security forces and private citizens facing personal threat, according to the company.

Viridian’s breakthrough idea “makes it possible to respond to danger faster and more accurately than ever before”, says Brian Hedeem, Viridian president. “In an emergency, it takes guesswork, confusion and hesitation out of the picture.”

Viridian’s advancement “will be a game-changer” says Mr. Hedeem, and will be part of every new Viridian laser, taclight and TacLoc holster. “Our goal is to give our user every possible advantage – and this is a big one.”

The new feature, now in production, will be unveiled December 19, 2011 and is already creating buzz among the few who’ve seen it in action. It will be available immediately upon launch through gun dealers and [viridiangreenlaser.com](http://viridiangreenlaser.com), providing LEO and defense-minded civilians with an immediate and powerful tactical edge.

### ABOUT VIRIDIAN GREEN LASER SIGHTS

Viridian Green Laser Sight is the nation’s fastest growing laser sight manufacturer. Headquartered in Minneapolis, Minnesota, Viridian Green Laser Sight is devoted to utilizing cutting edge laser technology to offer compact, powerful, green lasers, for military, law enforcement, and civilian usage. While not the original developer of green laser technology, Viridian Green Laser Sight was the first company to offer a compact green laser sight for use on pistols. Viridian Green Laser Sight, and its patent pending technology, make them the world’s leading green laser sight manufacturer. The company prides itself on offering the brightest and highest quality laser sights available. Viridian Green Laser Sight are designed and built in the USA.
