

FOR IMMEDIATE RELEASE:

## NEW TACLOC LASER-READY AUTOLOCKING HOLSTERS: VIRIDIAN PERFORMANCE, LOCKED IN.

**Minneapolis, MN—06/09/11** With green laser sights 50 times brighter than ordinary red types, Viridian has a well-deserved rep for performance. Now Viridian delivers another advantage: auto-locking holsters that optimize laser-equipped pistols through better holster fit, improved security and faster draw.

The new TacLoc Laser-Ready Autolocking holster line features Kydex tactical construction, specifically designed to fit Viridian-equipped pistols. An integrated auto-lock system secures the weapon when it's holstered, and instantly releases the weapon at the start of the draw – no searching for the latch, no strap to remove, no hood to release. Latch release pressure is engineered for maximum draw speed, and the index finger is instantly positioned to activate the Viridian laser/light and identify the threat.

### PERFECT FOR PROFESSIONALS.

Duty-ready TacLoc holsters are designed for performance and comfort in the mid-ride position professionals prefer. Current and future models fit popular Glock, Springfield XD/XDm, and M&P full-size and compact pistols equipped with Viridian X5L and C5 Series laser sights.

For C5 Series owners, current TacLoc holsters fit Springfield XD/XDm, soon followed with holsters to fit all Smith & Wesson M&P's and Glock full-size and compacts (17, 22, 19, 23).

Holsters compatible with the new Viridian X5L will be available for Springfield XD/XDm (not subcompact), Smith & Wesson M&P full-size, and Glock 17/22/19/23. X5L-compatible TacLoc's will begin shipping soon.

### WIDER CHOICES FOR TOP GUNS.

New TacLoc autolock holsters have just begun shipping to retailers across the country. The initial TacLoc righthand models will be joined by new models, throughout the year, extending Viridian performance to serious shooters of all kinds. ## **ABOUT VIRIDIAN GREEN LASER SIGHTS**

Viridian Green Laser Sights is the nation's fastest growing laser sight manufacturer. Headquartered in Minneapolis, Minnesota, Viridian Green Laser Sights is devoted to utilizing cutting edge laser technology to offer compact, powerful, green lasers, for military, law enforcement, and civilian usage. While not the original developer of green laser technology, Viridian Green Laser Sights was the first company to offer a compact green laser sight for use on pistols. Viridian Green Laser Sights, and its patent pending technology, make them the world's leading green laser sight manufacturer. The company prides itself on offering the brightest and highest quality laser sights available. Viridian Green Laser Sights are designed and built in the USA.
