

FOR IMMEDIATE RELEASE:

## VIRIDIAN® INTRODUCES THE FIRST GREEN LASER FOR GLOCK 26 AND 27

Minneapolis, MN—December 16, 2014

Viridian® continues to lead in green laser technology with the introduction of the first and only green laser sight for Glock 26 and 27 pistols. Packing the exclusive Viridian Green® 532 nm laser, the breakthrough Reactor® 5 (R5) is up to 50 times brighter than conventional red – visible day or night, indoors or out, in all conditions, at distances no red laser can touch.

This green laser and holster combo fits more than just the Gen 3 and 4 Glock 26/27. It also fits Gen 3 and 4 Glock 19/23/32/33/36/38/39.

With its pistol-matched design, ECR® Instant-On™ activation, two-color battery level indicator, and included holster, the R5 represents a complete carry package. With an MSRP of only \$239, it's a tremendous value!

ECR® (Enhanced Combat Readiness®) Instant-On™ feature shuts the laser off while holstered and ignites the laser immediately when drawn, without fumbling with buttons, sliders or unfamiliar grips. Additional ECR Instant-On holster models by Galco, DeSantis, and Crossbreed will soon be available.
