

FOR IMMEDIATE RELEASE:

## 'LIKE' VIRIDIAN ON FACEBOOK FOR A CHANCE TO WIN A NEW CTL COMPACT TACTICAL LIGHT

GREEN LASER SIGHTS

Minneapolis, MN—May 4, 2012—Viridian Green Laser Sights, maker of the world's most advanced laser sights, and now the world's smallest weapon-mounted tactical light is offering their Facebook fans a chance to win a new CTL Compact Tactical Light. All you have to do is 'Like' Viridian's Facebook page, and enter your name and email. The winner will be announced on May 11.

The new CTL (C series TacLight) is designed to tuck neatly between trigger guard and muzzle of any railed handgun, including subcompacts, with no overhang. Now even tiny concealed-carry pistols can carry massive illuminating power: 100 lumens of brilliant white light and 140 lumens of eye-dazzling strobe, packed into a sleek, miniature body that fits virtually anywhere.

Along with compact size, the new CTL is as tough and versatile as any Viridian C Series product, with the same aircraft grade hard-anodized aluminum construction, multi-programmable light and strobe, floodlight type close-quarter combat lens, and exclusive ECR (Enhanced Combat Readiness) function that works with TacLoc holsters to ignite the high-output LED at the instant of draw.

With the new CTL, shooters can add powerful dark-clearing illumination to their weapon of choice, with no concern for added bulk, poor fit or inadequate performance. If other Viridian products are any guide, the tiny, potent CTL tactical light will exceed all expectations.

'Like' Viridian here for a chance to win a CTL: <http://www.facebook.com/pages/Viridian-Green-Laser-Sights/338350040177?ref=ts>

## **ABOUT VIRIDIAN GREEN LASER SIGHTS**

Viridian Green Laser Sights is the nation's fastest growing laser sight manufacturer. Headquartered in Minneapolis, Minnesota, Viridian Green Laser Sights is devoted to utilizing cutting edge laser technology to offer compact, powerful, green lasers, for military, law enforcement, and civilian usage. While not the original developer of green laser technology, Viridian Green Laser Sights was the first company to offer a compact green laser sight for use on pistols. Viridian Green Laser Sights, and its patent pending technology, make them the world's leading green laser sight manufacturer. The company prides itself on offering the brightest and highest quality laser sights available. Viridian Green Laser Sights are designed and built in the USA.
