

FOR IMMEDIATE RELEASE:

RETURN OF A LEGEND: ALL-NEW X5L IS BACK AND THE BEST EVER.

Minneapolis, MN—1/11/2011 With a brilliant green laser up to 50 times brighter than red, the original Viridian X5L beat the daylights out of conventional laser sights. Powerful, versatile and dramatically visible around the clock, the full-sized X5L quickly became a law enforcement and personal defense favorite.

Never a company to coast, in 2010 Viridian launched the world's first subcompact-mountable green laser, the C5. The full-sized X5L took a back seat to the newer, smaller C5 Series.

Now the big guy is back.

LEANER, LIGHTER, BRIGHTER GAME-CHANGER FOR HANDGUNS.

The all-new X5L is the leanest, brightest, tightest light and laser combo in the world — and a game-changing accessory for all full-size railed handguns.

The 2011 X5L features a blinding 154 lumen, large-optic LED taclight with intensely focused beam and explosive 187 lumen strobe feature. The always-visible Viridian green laser is located next to the muzzle for increased accuracy. An arsenal of custom modes lets user's pre-program tactics, then adjust modes on the fly.

The trim new X5L is constructed of 6061 Aircraft Grade aluminum and Zytel® polymer housing -- tough as nails, and lean enough to tuck next to a full-sized trigger guard with no overhang.

Like the subcompact C5 Series, the full-sized X5L is fully universal, with a tight-fitting modular railset mount that matches any railed pistol.

Weighing just 3.3 ounces with its CR123A lithium battery, the X5L delivers an amazing 10+ hours of laser run time, for reliability under fire that won't weigh down users.

AVAILABLE STARTING FIRST QUARTER 2011.

The all-new X5L laser/light combo sight will begin shipping in the first quarter of 2011 to retailers across the country. Demand is expected to be high, and dealers are advised to order early to ensure delivery. For more information on the new X5L, visit: www.ViridianGreenLaser.com or call 800-990-9390.

ABOUT VIRIDIAN GREEN LASER SIGHTS

Viridian Green Laser Sight is the nation's fastest growing laser sight manufacturer. Headquartered in Minneapolis, Minnesota, Viridian Green Laser Sight is devoted to utilizing cutting edge laser technology to offer compact, powerful, green lasers, for military, law enforcement, and civilian usage. While not the original developer of green laser technology, Viridian Green Laser Sight was the first company to offer a compact green laser sight for use on pistols. Viridian Green Laser Sight, and its patent pending technology, make them the world's leading green laser sight manufacturer. The company prides itself on offering the brightest and highest quality laser sights available. Viridian Green Laser Sights are designed and built in the USA.
