

FOR IMMEDIATE RELEASE:

VIRIDIAN GREEN LASER SIGHTS FEATURED ON GUNS & GEAR TV

GREEN LASER SIGHTS

Minneapolis, MN—12/10/10 Viridian Green Lasers Sights are featured on this week's episode of Guns & Gear on VERSUS and VERSUS HD.

On this week's episode, host Ryan Gresham will discuss and demonstrate how to better focus on a deadly threat by using a Viridian Green Laser Sight. In a stressful time, your eyes will want to focus on whatever is threatening you, not your sights. A Viridian Green Laser Sight will project a guns front sight onto its target, allowing you to continue to focus on the threat and gaining confidence that your shot will go where you want it.

Viridian Green Laser Sights are fully daytime visible so no matter when a threatening situation takes place, owners will have the assurance that they will be able to see the laser in any lighting condition.

This week's episode airs on Saturday December 11th at 8:00am (EST).

Don't miss this chance to see these exciting products in action!

ABOUT VIRIDIAN GREEN LASER SIGHTS

Viridian Green Laser Sights is the nation's fastest growing laser sight manufacturer. Headquartered in Minneapolis, Minnesota, Viridian Green Laser Sights is devoted to utilizing cutting edge laser technology to offer compact, powerful, green lasers, for military, law enforcement, and civilian usage. While not the original developer of green laser technology, Viridian Green Laser Sights was the first company to offer a compact green laser sight for use on pistols. Viridian Green Laser Sights, and its patent pending technology, make them the world's leading green laser sight manufacturer. The company prides itself on offering the brightest and highest quality laser sights available. Viridian Green Laser Sights are designed and built in the USA.
